Advanced Wastewater Microbiology Training

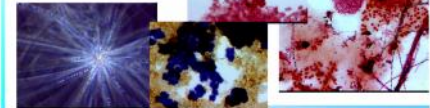

Learn The Filaments

Below are just some of the Areas of Training on this Multimedia CD. Only \$395.00

Low Nutrient filaments and problems

- Zooglea
- Type 021N
- Thiothrix I,II
- N limicola
- Tetrads

- Table of Contents:**
- What are filaments?
 - Filamentous Identification-methods used
 - Using the microscope- tips and procedures
 - Filament and Floc Characteristics
 - Bulking vs. Bridging
 - Foaming problems
 - Cheating and using individual characteristics to skip to the chase!
 - Plant Troubleshooting

- Causes and Controls
- 1000's of Photos
- Troubleshooting
- Training
- Detailed Descriptions
- Case Histories
- MultiMedia
- How to cheat & do/ID it the easy way
