

Biological Wastewater Process Control Seminar

Training Seminar Overview:

This 2-day (16 hours) course is IL. approved as Training for Wastewater Operators, Engineers, & Laboratory personnel .

This seminar will present the process control methodologies and laboratory techniques necessary to control the activated sludge process or any wastewater treatment system with an emphasis on process monitoring & troubleshooting. These approaches are equally applicable to domestic and industrial facilities. Past participants from industries such as Food and Beverage, Wineries, Chemical, Papermill & Petrochemical have been successful in applying these methods to control their processes. Municipalities will greatly benefit from this training course. The course will consist of lecture, microscopic analysis, plant audit, demonstrations of certain laboratory procedures and microscope use.

Course Materials

Each attendee will receive complete class documents on a CD / Flash Drive that is included in the Training Course. *valued at \$275.00.*

Who should attend?

The course is designed for all wastewater professionals, particularly operations personnel, such as operators, engineers & laboratory personnel.

Registration Form – 2-Day Training
Biological Wastewater Process Control Seminar
by Tracy Finnegan - Environmental Leverage® Inc.

April 17th & 18th 2024

Wed. & Thurs. 8am - 4:30pm both days

Seminar held at:

Environmental Leverage Inc.
1454 Louis Bork Drive
Batavia, IL 60510

Name

Position or Title

Organization

Business Address

City, State & Postal Code

Phone

Email

Registration Fee: Full 2 Day Course \$395

**Includes lunch both days of class*

Method of Payment

Check, Visa, Master Card, Discover or PO#

Please make checks or purchase orders to:

Environmental Leverage Inc.

A/P 812 Dogwood Dr., Suite A
North Aurora, IL 60542

Email: elfenvironmental@aol.com

Phone: 630-906-9791

(Registration address only)

Course Outline

Day 1 Schedule

Wastewater Basics Overview
Microbiology Overview
Floc & Filaments Analyses
Microscope Use, Techniques & Stains
Lab Sample Handling & Prep
Hands on Microscopic Observation
Visual Observations & Troubleshooting
Filaments, Zooglea & Foam control
Solids Carryover & Settling Problems

Day 2 Schedule

Process Overview & Process Variations
Process Control Strategies
Equipment Optimization
Preliminary, Primary, Secondary,
Clarifiers
Digesters and Dewatering
Settleometer, Clarifier Simulation Test
Sludge Judge Profile
Environmental Issues
Troubleshooting
Case Histories - Plant Examples

Are Wastewater Treatment problems getting to you lately?

Don't miss this opportunity to increase your knowledge of biological process control in your wastewater treatment system. Learn how to troubleshoot and optimize your treatment system.

General Information:

Registration first day is at 7:45 a.m.

2-Day course begins at
8:00 a.m. to 4:30 p.m.

April 17th & 18th 2024

Wednesday and Thursday

Lunch will be provided both days

The Course Instructor:

Tracy Finnegan is an environmental engineer with Environmental Leverage® Inc., Illinois. Tracy was formerly associated with Nalco and Suez, where she worked for more than 12 years in numerous positions related to research, operations, design evaluation, auditing and troubleshooting wastewater systems. Tracy now operates her own Environmental Engineering Company that supplies bioaugmentation products, training, lab services, system audits & auditing services. CEU's approved for

2 Day Biological Wastewater Training Class

www.EnvironmentalLeverage.com

Tracy has taught biological wastewater process control to operators & engineers for over 30 years and performed audits and troubleshooting at over 6000 industrial and municipal treatment plants. Tracy holds a BS degree in Business Chemistry from Northern Illinois University.

She is a co-author in WEFTEC's Book Wastewater Biology: The MicroLife, and has now developed 12 new wastewater Training CD's.

She also created online Wastewater ELearning Training for CEUS
