

Online Wastewater Training Courses

- Wastewater Training From Your Own Computer
- Interactive Courses & Troubleshooting Activities
- Course Videos, Images, Quizzes & Completion Test
 - Increase Your Troubleshooting Knowledge
 - Pre-Approved for CEU's or PDH in most states • 30 Day Window to Complete a Course with Pause & Continue Feature • Convenient & Flexible at Your Own Pace
 - Enjoy a Virtual Tour with Free Course Demo
- Certificate of Completion Awarded

Wastewater Training, Worldwide Environmental Engineering & Biological Troubleshooting

Are your Surcharge costs too high?

Does your plant have odor control issues?

Do you spend too much money on Biosolids handling?

Does your lab use the Microscope as a daily process control tool?

Is your effluent reuse water causing issues?

Send us your MLSS, Lagoon or Biomass sample. Start your way now to a cleaner, brighter effluent.

Standard Wastewater Biomass Analyses

\$250.00 Includes:

Cover letter with comments, recommendations, advice & troubleshooting tips.

Higher life form sheet

Floc structure analyses

Microscopic Photograph Sheets

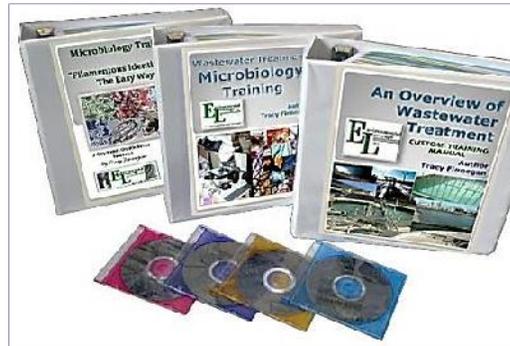

CD with Microscopic Photos & Videos

Results the same day as your biomass sample is received

Wastewater Biomass Analyses

w/ Filamentous Identification: \$350.00

Includes the Standard Biomass Analyses, plus filamentous ID including Gram & Neisser stains, suggestions on causes & control with troubleshooting advice & tips. Full Report

Wastewater System Training CD's

Wastewater Basics - \$125.95

Higher Life Form Videos - \$75.95

Wastewater Microbiology - \$125.95

Filamentous Identification - \$75.95

Purchase All 4 above CD's as a set for \$250.00

(you save over \$150.00)

"Filamentous ID The Easy Way™"

This amazing CD makes Identification of filaments Easy & Simple.

While combining treatment plant processes & troubleshooting procedures.

This CD will give you the power to improve your wastewater treatment system.

Using the Microscope Tips & Procedures

"Filamentous ID The Easy Way™" \$375.00

WW Treatment System Bioaugmentation, Algae Control, Lagoon Products FOG Reducing MicroBlocks

MicroClear 207 for high FOG MicroBlock Solid for FOG

Proven Bacteria Formulations

Water Soluble Pouches

Enhances BOD/COD Removal

TSS Reduction

Nitrification

Filamentous & Odor Control

Solids Handling Reduction

Breaks Down FOG

Solid Slow Release & Liquid Formulas

MicroBlocks: FOG Removal

Liftstation Grease Elimination

Contains Facultative Anaerobes

Dual Program Reduces Cost

Algae Control/Restores Water Quality

Product Dosing Wizard included
